## Platinum Vertical Lift

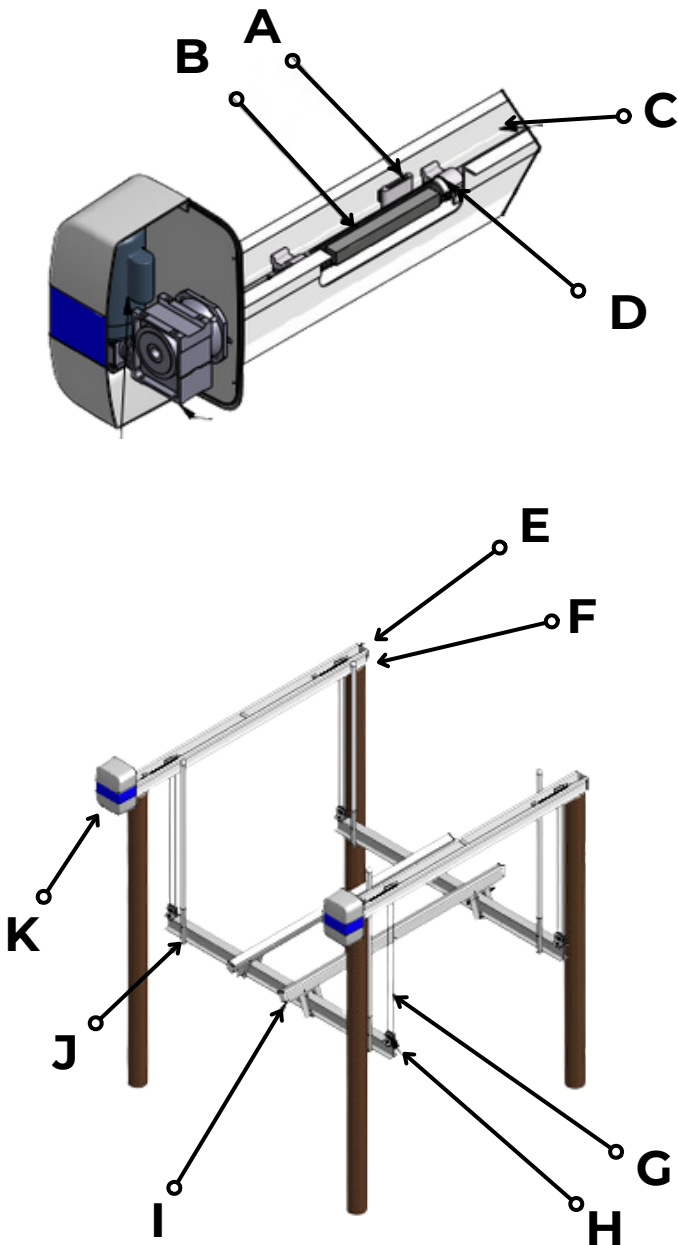

Why settle for “gold” when you can own the Platinum Boat Lift? The Platinum vertical boat lift series by IMM Quality Boat Lifts is a superbly engineered, gear-driven boat lift. Our Platinum vertical boat lifts exceed the industry standard and outperforms all other manufacturer’s products.

The Platinum drive is an aluminum double-worm transmission for a maintenance-free direct drive-to-shaft connection. The Platinum drive was redesigned specifically for marine applications in 2004.

The fact that IMM Quality Boat Lifts has never had the Platinum drive fail for any reason has contributed to its legendary durability.

# FEATURES AND OPTIONS

## Platinum Vertical Lift Standard Features

- A** Patented wedge lock allows for easy cable adjustment.
- B** Grooved aluminum cable winders with cable keepers.
- C** Heavy gauge, high torque capacity drive tube with Gatorshield electro-plating to prevent corrosion.
- D** Maintenance-free tribopolymer shaft bearings require no lube.
- E** Custom extruded top beam stepped channels provide structural support for the bearing blocks.
- F** All 6061-T6 aluminum and stainless steel construction.
- G** Stainless steel aircraft cables.
- H** Maintenance-free aluminum pulleys with self-lubricating bearings.
- I** Standard on Platinum, custom extruded aluminum bunks with UV resistant non-marring pvc caps. Alumavator comes standard with fully carpeted pressure treated wood bunks.
- J** Heavy duty reinforced guide post base with pvc covered guide posts that are easily adjustable.
- K** Heavy duty rotomolded covers protect mechanical and electrical components from the elements.

## OPTIONS

- Walk boards
